RE: Chemical Right-To-Know Program

Dear Mr. Leavitt,

In November 1999, Reilly Industries, Inc. submitted a letter to USEPA indicating our intent to sponsor several pyridine derivatives in the US HPV Chemical Challenge Program. Those chemicals are as follows:

CAS Registry Number	Chemical Name
110-86-1	Pyridine
109-06-8	2-Methylpyridine (2-Picoline)
108-99-6	3-Methylpyridine (3-Picoline)
108-89-4	4-Methylpyridine (4-Picoline)
110-89-4	Piperidine
110-54-9	Nicotinonitrile (3-Cyanopyridine)
68391-11-7	Pyridine, alkyl derivatives
100-69-6	2-Vinylpyridine (2-Ethenylpyridine)

Reilly has previously fulfilled our commitment to provide robust summaries and test plans for Pyridine, 2-Methylpyridine, 3-Methylpyridine, 4-Methylpyridine, Piperidine, Nicotinonitrile and Pyridine, alkyl derivatives through the submission of this information by the American Chemistry Council's Pyridine and Pyridine Derivatives HPV Work Group on December 17, 2003.

Reilly hereby completes its commitment to identify and assess all existing data on the above-listed pyridine derivatives by supplying the attached test plan document for 2-Vinylpyridine. Robust summaries are included in the test plan, and may be found in Appendix B.

If you have any questions regarding our submission, please contact me at (317)248-6548, or by e-mail at mbogle@reillyind.com.

Sincerely,

Reilly Industries, Inc.
